

MOWER

RCG SUB-COMPACT FIELD MOWER

RCG 小型割草机

- Three blade design for faster smoother cutting
- Round back for closer quarter cutting
- Free flex, floating design with skids allows mower to adjust to and follow contour of your ground
- Adjust offset by sliding 3 point mount left or right. This allows you to get closer to and/or under objects and trees. Offset is up to 6" left or right of center.
- Safety chain to reduce the danger of objects of being thrown by the cutting blades
- Cut material up to 2" in diameter
